## DTI chief bucks GMA claim on turnaround

After two years, television giant GMA Network Inc. is now back on the fast track. President Manuel Villar promises that the network will be profitable by the end of 2001.

Speaking last night, Villar said that he, the President's son, considers himself part of the turnaround, joining the group of 100 shareholders in guaranteeing the network's continued existence. In fact, Villar's personal investment in GMA Network has helped sustain the network's survival.

"We are looking forward to a fast turnaround because the company has good and competent executives, the know-how and the technology needed to get the network back on its feet," Villar said.

# Solon hits discrimination vs Muslims

By Cynthia D. Balana

A MUSLIM congressman has condemned the growing discrimination against fellow Muslims in the Philippines which could fuel the already volatile relationship between Christians and Muslims.

In a privilege speech Monday night, Rep. Mijoy Eustacio of the party-list Anak Mindanao (Amind) said that discrimination ranged from the cancellation of an application to purchase a house and lot to the rejection of a plan to build a prayer house to the alleged extortion committed by some policemen on unsuspecting Muslims.

Eustacio cited the case of Prof. Ismail Kantilan, vice chancellor of the Mindanao State University-Iligan In-

stitute of Technology and an International Peace Advocate, whose approved application to purchase a residential lot at the Grand Europa subdivision in Cagayan de Oro City was cancelled because he is Muslim.

"The racist attitude against and personal animosity for Muslims inside and outside Mindanao, the obstacle of anti-Muslim discrimination must be removed. I hope we can join hands, minds and hearts in breaking this ice in the coming days," he said.

Eustacio called for a congressional inquiry into the Kantilan case, the Greenville mosque issue and the deplorable condition of Muslim markets in city jobs.

Citing a documentary by the Mind Muslim Community Organizing and Rural Development Inc., which was shot in

Manila City Jail and Camp Kumbaga City Jail in Quezon City, he said at least 28 Muslims workers have been subjected to various forms of discrimination.

Eustacio also lambasted newspaper columnist Max Soliven whose "paranoia" spurned some members of the Federation of Greenbelt Association to oppose a plan to build a mosque at the Greenbelt Shopping Center in San Juan.

Worse, he said, politicians have been filing trumped-up charges against Muslims in the Muslim municipalities in Cotabato, Quezon City and Maharlika Village in Taguig, Metro Manila. Politicians allegedly plant evidence and then charge Muslims with selling or illegal possession of drugs and ask their relatives to produce between P300,000 and P500,000 "bail" for their release.

## Fund lack pushes back barangay polls anew

By Jerome Abing

COMMISSIONER on Elections Chito Benjamins Abalos yesterday said next year's barangay elections will be practically deferred because of lack of budget.

"Practically, the barangay elections next year cannot be held. There has been a disconnect between Congress and Malacañang that the barangay elections can't take place as scheduled due to lack of funds," Abalos told reporters.

The only exception to be conducted next year would be the one for the Autonomous Region of Muslim Mindanao, he said.

The barangay elections, which have been postponed several times in the past, were expected to be held May next year. Holding the polls would cost at least P2.9 billion.

## Nuclear terrorism a real threat, says UN

GENEVA — The world must do more to curb nuclear terrorism, the United Nations Security Council said today, as it adopted a resolution to strengthen international law and prevent nuclear terrorism.

The resolution, which was adopted by a vote of 14 to 0, with the United States abstaining, calls for the international community to work together to prevent nuclear terrorism and to ensure that nuclear materials are not used for terrorist purposes.

The resolution also calls for the international community to work together to prevent nuclear terrorism and to ensure that nuclear materials are not used for terrorist purposes.

## US court rules war on terror tribunals illegal

WASHINGTON — A federal judge has ruled that the US government's use of military tribunals to try terrorism suspects is illegal.

The judge, who is part of a three-judge panel, said that the government's use of military tribunals is a violation of the Constitution and the laws of the United States.

The judge's ruling is a significant blow to the government's efforts to try terrorism suspects in military tribunals.

# LPG up P30.80 per 11-kilogram cylinder

Noise barrage power-off set today to protest high power rates

MANILA, Nov. 14 (AP) — The price of liquefied petroleum gas (LPG) for 11-kilogram cylinders rose by P30.80 to P1,000.00 per cylinder, the Department of Energy (DOE) said today.

The DOE said the price increase was due to a combination of factors, including a rise in the cost of crude oil and a decrease in the supply of LPG.

The DOE said the price increase was effective immediately.

## World Bank lists constraints to RP growth

By Ben C. Ochoa

MANILA, Feb. 10 (UPI)—The World Bank today listed the main constraints to Philippine economic growth as the high cost of borrowing, the

inadequacy of infrastructure, and the lack of a

stable macroeconomic environment.

The bank's annual report on the Philippine economy, which is

being published today, says that the country's economic growth

has been hampered by the high cost of borrowing, the

inadequacy of infrastructure, and the lack of a

stable macroeconomic environment.

**Male involvement**

Following completion of the initial training, the men were given a computer-assisted (CASI) interview. The interview was administered by a research assistant (R.A.). During the interview, the men were asked to provide information on their socio-demographic characteristics, their knowledge of HIV/AIDS, their sexual practices, and their perceptions of the role of men in HIV/AIDS prevention.

The CASI interview was administered in the men's homes. The interview was conducted in the men's homes, and the research assistant (R.A.) was trained to administer the interview in a confidential and non-judgmental manner.

for 14 weeks. A single long-term study (10) has shown that the use of a low-dose, long-term, continuous, subcutaneous infusion of insulin can be safely and effectively used in the treatment of type 1 diabetes. The authors of this study reported that the use of a low-dose, long-term, continuous, subcutaneous infusion of insulin was associated with a significant reduction in the risk of hypoglycemia and a significant improvement in glycemic control.

After the incident, I called the journal, and we discussed the situation. I was told that the journal would not publish the article, but I was not sure if the journal would publish the article. I was not sure if the journal would publish the article. I was not sure if the journal would publish the article.
